# CENTRAL NODE

ST. JOSEPH'S SCHOOL  
– CAMPUS GUIDE

## DISCIPLINE FIRST

Stay punctual, dress sharp, and follow schedules.

Discipline isn't boring — it's how legends are built. Respect your teachers, peers, and the space you share. Show up. Speak kindly. Step up.

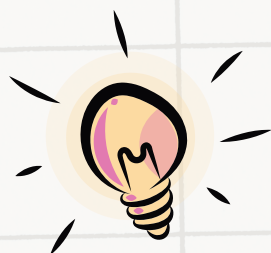

## TECH MANNERS

Phones are smart — but smarter students know when to switch them off. Mobile phones are strictly banned on campus, unless specially allowed for a school event. Respect digital boundaries just like real ones. Screens off = Minds on.

## UNIFORMITY IS UNITY

Your uniform is your first impression. Wear it with pride. Tuck in, badge up, tie straight. A neat appearance shows a ready mind.

# RULES & ETIQUETTE

## SPEAK RIGHT, ACT BRIGHT

Language and behavior are your signature. Keep it positive, helpful, and inclusive. Every word shapes your identity. Every action reflects your upbringing.

## KEEP IT CLEAN

Your surroundings speak about you. No littering. No scribbles. Respect common areas, desks, labs, and corridors. Clean spaces = clear minds.

## SENIORS & JUNIORS

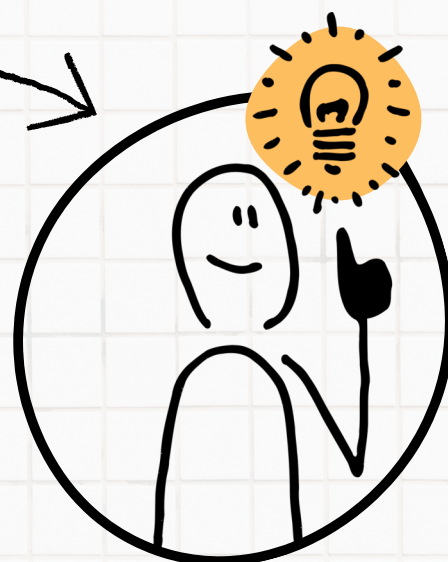

Be a buddy, not a bully. Seniors lead by example. Juniors follow with spirit. Together, you build the culture. Help out. Look out. Speak up when needed.

Make the Most of Class 11!

# Class 11 isn't the warm-up — it's the launch.

*Starting Class 11 is more than just a shift in subjects – it's a shift in mindset. Here's how to get the best out of this defining year:*

## 1 Build Strong Foundations

This year sets the stage for Class 12 and beyond.

Focus on understanding concepts deeply – especially in subjects like Physics, Chemistry, Maths, and Accountancy. Don't just memorize; make it click.

## 2 Manage Time Wisely

Balancing school, tuition, hobbies, and rest takes planning.

Use a daily schedule or planner. Break tasks into smaller goals and celebrate small wins. Consistency > intensity.

## 3 Explore, Don't Just Study

Join clubs, try out competitions, speak up in assemblies.

This is your time to discover talents, build confidence, and create school memories beyond books.

## 4 Ask, Reflect & Grow

Never hesitate to ask questions – in class or in life.

Take time to reflect on what's working, what's not, and how you can improve. Growth starts when curiosity meets courage.
